

MOST INNOVATIVE DESIGN

NOMINEE FORM

Congratulations! You have been nominated for the Lightning Protection Institute's Most Innovative Design Award for 2022. This award is given to an individual and/or firm that demonstrated early coordination with an LPI professional to design an innovative solution to improve the aesthetics of a lightning protection system on a noteworthy structure.

Please confirm your personal information and verify that you understand you have been nominated.

Name of Project _____

First/Last Name _____

Name of Firm _____

Role/Position _____

Address _____

Email _____

Optional: Please add any additional comments or information that you would like to share about working on this project.

I confirm that I had early coordination with an LPI member on this project completed in 2020 or 2021. I understand that this information may be used for publication or for public relation purposes.
